## CALL FOR APPLICATION

### ERASMUS+ SHORT-TERM MOBILITY FOR STUDENTS

#### WHAT

What is supported?

Erasmus+ supports travel and subsistence costs for short-term mobility (between 5 and 30 days) for PhD students. For working students in Bachelor and Master programs, short-term mobility must be combined with a virtual component.

#### WHEN

For which period?

Effective immediately. The grant cannot be awarded retroactively.

#### WHO

Who can apply for the grant?

All active PMU students in the Bachelor, Master and PhD programs. Attention: mobility in Austria, in home country or country of residence during studies cannot be funded.

#### WHERE

Where can the mobility take place?

In the industry (e.g., companies, organizations, research institutions) or at a partner university in the 26 EU member states including their overseas countries and territories, Norway, Iceland, Liechtenstein, the Republic of Northern Macedonia, Serbia, and Turkey. Since the PMU is an Austrian university, mobility in Austria is not eligible for funding. This also applies to students in Campus Nuremberg.

#### HOW

How to apply for the grant?

Please register your interest in the Excel list in MS Teams „Studierendenmobilität Erasmus+ Förderung“. For further questions, please contact the International Office at [susanna.holzer@pmu.ac.at](mailto:susanna.holzer@pmu.ac.at). Links and documents are available at <https://international.pmu.ac.at>

#### WHY

Why is mobility important?

A stay abroad supports, among other things, the acquisition of social, professional and methodological skills, as well as the development of global citizenship, building international network and broadening horizons.
